Job details

Salary up to £17500 per Year
Job type Permanent

Requirements

You're working towards a 2:1 degree in either Engineering, Business Management, Law, Risk & Governance, Compliance or Environmental Studies.

You have a knowledge of current policies and procedures that affect HSSE management.

You can demonstrate you've given advice within a business that's had a successful outcome.

You're a strong communicator and influencer, and able to make complex information easy-to-understand.

You're able to show you can extract data to draw credible conclusions and possess good analytical skills.

Job responsibilities

Developing and implementing effective risk control systems, procedures and standards.

Providing advice on technical / HSSE matters.

Monitoring activities of the business to ensure we meet our HSSE requirements - to our people, our service providers, all third parties and the general public.

Suggesting improvements wherever possible.
