### Job responsibilities

---

This is a great opportunity to use your dental skills in a different environment. You will need to be able to complete in depth research into new treatments and medicines, as you will be managing cases for a wide variety of dental conditions.

As part of the dental team you will use your clinical expertise to proactively manage claims, use your dental nurse experience within an office environment, talking to our members / providers on the phone, helping them with their claims on their Private Medical Insurance, provide pre-authorisation and guidance to peers on all dental and maxillofacial treatment and be recognised as a dental expert.

Support Customer Service / Sales when dental clinical decisions are required, and there will be an opportunity for research and to deliver training workshops and provide clinical support to our dental provider network.

You will also be encouraged to develop and maintain your dental knowledge to provide consistently high quality case management.
