Location England, West Midlands, Birmingham

Job details

Salary £30000 - £40000 per Year
Job type Permanent

Requirements

Our vehicles continually set the benchmark for luxury and quality thanks to our unrivalled commitment to infinite detail; to sourcing the best materials the world has to offer. This is where you come in. Join us within our dynamic Purchasing team, and you'll have responsibility for a portfolio of commodities, and be accountable for the full spectrum of procurement. We'll expect you to play a pivotal role in making sure we benefit from the best technical, commercial and logistical outcomes from the supply chain. To do this, you'll rise to a number of challenges including cost improvement negotiations, product benchmarking and the identification of sourcing opportunities in emerging markets.

Job responsibilities

To be a success in this vital role you'll be an experienced buyer or have worked in a commercial role such as sales or project management. Your commercial experience doesn't necessarily have to be within the automotive industry, but you must be ready to adapt to a constantly changing and challenging working environment. Strong communication skills and the ability to influence decisions are vital, as is expertise in managing project delivery to deadlines and within budget. We'll also expect you to have a brilliant track record in negotiating and a demonstrable knowledge of diverse commercial relationships. Bring all this to the home of premium innovation, and you'll find the opportunities to further your career with a world-class team, a privilege car purchase scheme, membership of a competitive pension plan and performance related bonus scheme. All this and more makes Jaguar Land Rover the perfect place to continue your journey.
