Job type Permanent

Requirements

Due to our continuing expansion plans we wish to appoint an additional talented individual to our team.

The role will suit an experienced consultant keen to further their career, or someone new to the recruitment industry with relevant experience in Engineering, Production or Manufacturing combined with a strong track record in sales.

We are keen to speak to individuals who are serious about a career in recruitment, who want to play an integral role in building a business and who have long-term vision. We are therefore looking for people with solid histories – job hoppers need not apply!

Job responsibilities

Perhaps the key part of your role will be to identify and source talented candidates, working with them to secure their next career move. In order to give our consultants the competitive edge, we have invested in state-of-the-art software that includes:

A superb CRM that makes candidate management easy

Aggregated candidate search of social networks such as LinkedIn and of multiple CV databases

Auto-import, from LinkedIn and CV databases, creating candidate records with a single click

Search watchdogs

Advert multi-posting
